

Due to the fact that we fill the examination seats as applications are filed, the applicants cannot choose their examination date. We also have had to change examination dates from one profession to another in the recent past to accommodate the applications received at that time.

We have found that most students expect or think they are applying for a certain examination date only to be disappointed when that date has been changed or filled. This became quite a problem last year.

For these reasons, we do not have a set examination schedule to provide to you.

Thank you.
